AUER GROWTH FUND

- Seeks long-term capital appreciation through equities of high-growth firms that may be undervalued
- Active management with an extremely stringent selection process
- Strict divesting of stocks not meeting fund requirements
- Invests in all size categories of U.S. companies' common stocks meeting SBAuer criteria for true-growth potential

AUERX

DATA AS OF 12/31/2022

The Auer Growth Fund's singular goal is LONG-TERM CAPITAL APPRECIATION. All equities traded in the U.S. are assessed throughout each quarter as the Fund searches for companies showing potential growth and profitability as defined by nine stringent criteria.

You should carefully consider the investment objectives, potential risks, management fees, and charges and expenses of the Fund before investing. The Fund's prospectus contains this and other information about the Fund, and should be read carefully before investing. You may obtain a current copy of the Fund's prospectus by calling (888) 711-2837.

Investing involves risk, including the possible loss of principal. You could lose money by investing in the Fund. There can be no assurance that the Fund's investment objectives will be achieved. Small-cap and mid-cap investing involves greater risk not associated with investing in more established companies, such as greater price volatility, business risk, less liquidity and increased competitive threat. Stocks of micro-capitalization companies are more volatile, less liquid, involve substantial risks, and are subject to more abrupt or erratic movements than small, mid-, or large capitalization companies. The Fund invests in companies that appear to be growth-oriented companies. If the

Adviser's perceptions of a company's growth potential are wrong, the securities purchased may not perform as expected, causing losses that will reduce the Fund's return.

The Fund imposes a 1% redemption fee on proceeds redeemed or exchanged within 7 days of purchase. The performance illustrated does not include the effect of the redemption charge. If it did, performance would have been lower.

The S&P 500 Index is a widely recognized unmanaged index of equity prices and are representative of a broader market and range of securities than is found in the Fund's portfolio. The Index returns do not reflect the deduction of expenses, which have been deducted from the Fund's returns. The Index return assumes reinvestment of all distributions and does not reflect the deduction of taxes and fees. For Shareholder Services, please call (888) 711-AUER (2837).
